

Men Called In Draft to Keep Civil Service Jobs If Law Is Approved

At the insistence of Supervisor Oscar Hauge of the Fourth District, action was taken today by the Board of Supervisors which will result in those county employees who enter the military service of the United States having their jobs saved for them to re-enter at the termination of such service.

The Board on Hauge's motion adopted a recommendation, made by the County Civil Service Commission, that the county counsel immediately prepare an amendment to the County Charter to be voted on at the coming Nov. 5 election. If adopted, it will make it mandatory on the part of the county to reinstate county workers in their positions after completing their service in the armed forces of the nation.

Probation Office Theft Reported

Somebody evidently obtained probation he was not entitled to. At least this is the opinion of County Probation Department officials.

Persons on probation report at intervals to the probation office in the Law building.

Officials there could not believe it possible but someone stole a typewriter from the office. The machine was in use on the third floor and officials believe some probationer, giving in to the lure of pilfering, took the machine and carried it out of the building via the stairway.

"We didn't report the matter for a week or more because we couldn't believe the theft possible," probation officials said.

Junior Chamber Hears Lessing on Youth Center

At the regular meeting of the Torrance Junior Chamber of Commerce last Thursday night, City Judge Robert Lessing gave an informative talk to the 21 present on the work being done by the Torrance Coordinating Council, of which he is president. He presented the case for establishment of a "youth center" in the geographic center of the city which has been found to be near the high school.

The Junior Chamber decided to operate a concession at the Factory Frolic and also enter a float in the parade, Sept. 28. A report from the Youth Welfare committee, currently engaged in attempting to establish an apprenticeship system for training of young men in local industries, was made. This committee met with Commander Edwin Bird of the American Legion Post and arrived at some definite conclusions and has contacted some of the local industries.

Officers of the local group have been invited to attend the board meeting of the California State Junior Chamber in Fresno, Sept. 21 and 22. A report was given on the plans for the Torrance group's first major public enterprise—a dance in the Civic Auditorium Saturday night, Sept. 14. Music will be furnished by Jim Bell and his Chevaliers, a local band whose soloists, two sisters and Dick Miller, feature "sweet swing" tunes.

The Junior Chamber will meet again tonight at 8 o'clock in the Chamber of Commerce building.

President Roosevelt Says Students Should Carry Out Education Plans

That students should be advised to carry out their plans to continue their college education with the opening of the fall term was stressed in a letter from President Franklin D. Roosevelt to Dr. Rufus B. von KleinSmid, president of the University of Southern California.

Received yesterday, the communication was forwarded thru the United States Commissioner of Education, Dr. John W. Studebaker, who also emphasized that youth should "use to the utmost the unequalled training opportunities of colleges and universities."

President Roosevelt's statement in full read: "Reports have reached me that some young people who had planned to enter college this fall, as well as a number of those who attended college last year, are intending to interrupt their education at this time because they feel that it is more patriotic to work in a shipyard, or to enlist in the Army or Navy, than it is to attend college. Such a decision would be unfortunate.

Martin Sees Swollos, Foles; Writes Grandma

"Dear grandma We are having fun. We saw a owl, 3 deers and 8 swollos, 2 water foles and 20 blue birds. Martin Garry."

This is the entire substance of a letter received by Mrs. Pearl Montanye from her grandson, aged seven, who is with his parents at Big Bear City.

The letter was written in ink, Martin Garry's first attempt, and "grandma" is satisfied that her grandson is having a good time but hasn't forgotten her.

Also, it is a safe bet that grandma will keep her first letter from her grandson.
